

**Qualified. Competitive.
There to Serve.**

We're there when you need us with solutions that work.

**Forest Electric NY's Building Services—
a cost-effective, local solution you can trust.**

When you need local boots on the ground, our highly skilled and highly trained field mechanics and engineers can respond to your situation immediately. Whether you need someone to troubleshoot your electrical outage or design your additional power requirements, Forest Electric's Building Services division can provide you with the solutions you need.

Even if we didn't handle the electrical installation, we can still provide warranty, maintenance, and repair services. And that means that you'll still get all the superior service and expertise you've come to expect from one of the NY metropolitan area's premier electrical contractors.

Quick & competitive service

For over five decades, we've been working with leading manufacturers, reps, distributors, and lighting designers—and we've consistently exceeded their expectations with more competitive, more efficient service.

Technology-driven solutions

We're a technology-driven business that's been meeting and exceeding the electrical maintenance requirements of many leading building owners, financial institutions, and major corporations for over fifty years.

An accomplished workforce

The entire Forest Electric workforce is comprised of highly qualified, highly skilled electricians and mechanics capable of dealing with almost any problem that emerges. And perhaps best of all, we're able to respond to those problems exactly when you need us.
